

GRUP FÁBREGAS

CORPORATE PRESENTATION

Fábregas
Urban, S.A.U.

Urbancity
Ibérica, S.L.U.

2017

The origin of Fábregas goes back to 1917. The current team already represents the third generation of smelters; a century of knowledge and experience has established us as one of the main companies in the sector.

To respond properly to the demands of our customers, in 1989 we evolved to become Grup Fábregas.

Fundición Dúctil Fábregas S.A.U.
Ductile iron, specializing in the manufacture and marketing of covers, sewer grates and pipes for sewage. Headquarters located in Igualada (Barcelona).

Parques y jardines Fábregas S.A.U.
Its activity focuses on manufacturing and distribution of urban furniture, playgrounds and bio healthy elements. Located in Igualada (Barcelona)

Fábregas Urban S.A.U.
Cast iron manufacturer and marketer of scuppers fences, channels and grids, covers for telephony and communications; and hydraulic lids. Located in Valencia.

Urbancity Ibérica S.L.U.
Company dedicated to the manufacture and marketing of prefabricated concrete material. Located in Valencia.

Quality

We only manufacture with first quality raw materials, performing with strict monitoring during the production process to take care of every finishing detail.

Service

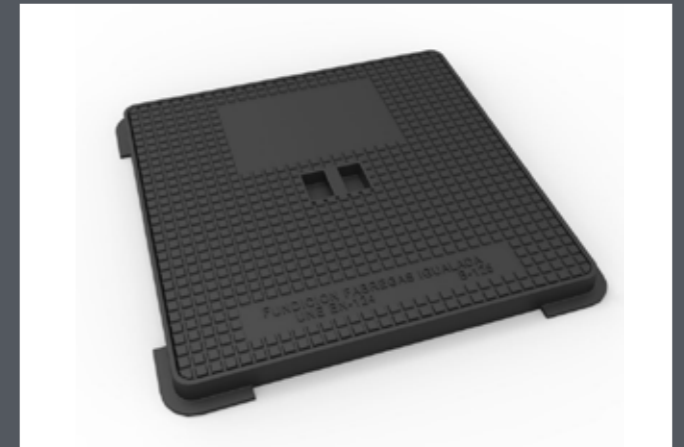

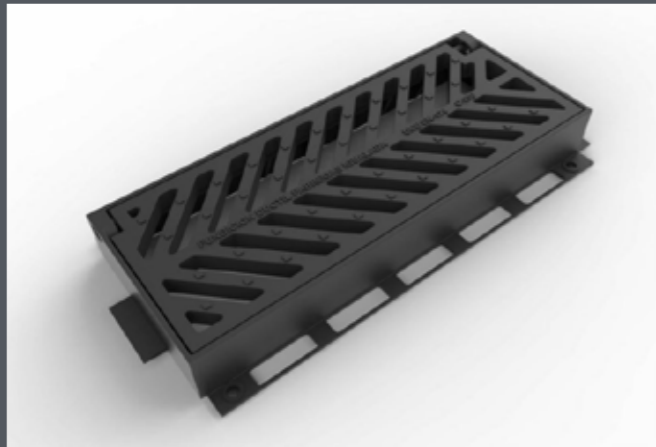

Our sales team works 12 hours a day to meet the needs of our customers. Our 8 telephone lines always ensures a quick response being agile in deadlines and making deliveries on site within 24-72 hours.

Competitiveness

Through innovative production processes we are able to provide our clients with quality products at a reasonable price, giving them more flexibility in their budgets entries, especially for architects and town planners.

Ductile Cast

Ductile products | Manhole covers | Sewer grates
Pipes for sewage | Scuppers | Kerb gullys

Street Furniture

Benches | Fountain | Planters | Bins | Bollard | Cycle racks

Polyethylene products

UV protection | No maintenance | Antigraffiti
High resistance to impacts | Ecological
Recyclable | Wide variety of colours

Through technological applications and innovative processes we are able to manufacture and distribute high quality polyethylene products.

FABREKOMPO

Grup Fabregas is always looking to the future and innovation taking advantage of market opportunities.

We have done an important investment in innovation, launching the new composite products, changing the market's ductile paradigm with the new composite manhole covers, a material characterized by using a mixture of thermostable resins and tissues of reinforcement.

By using the most innovative machinery and high-qualified engineers we produce the composite items in our facilities.

Fabrekompo

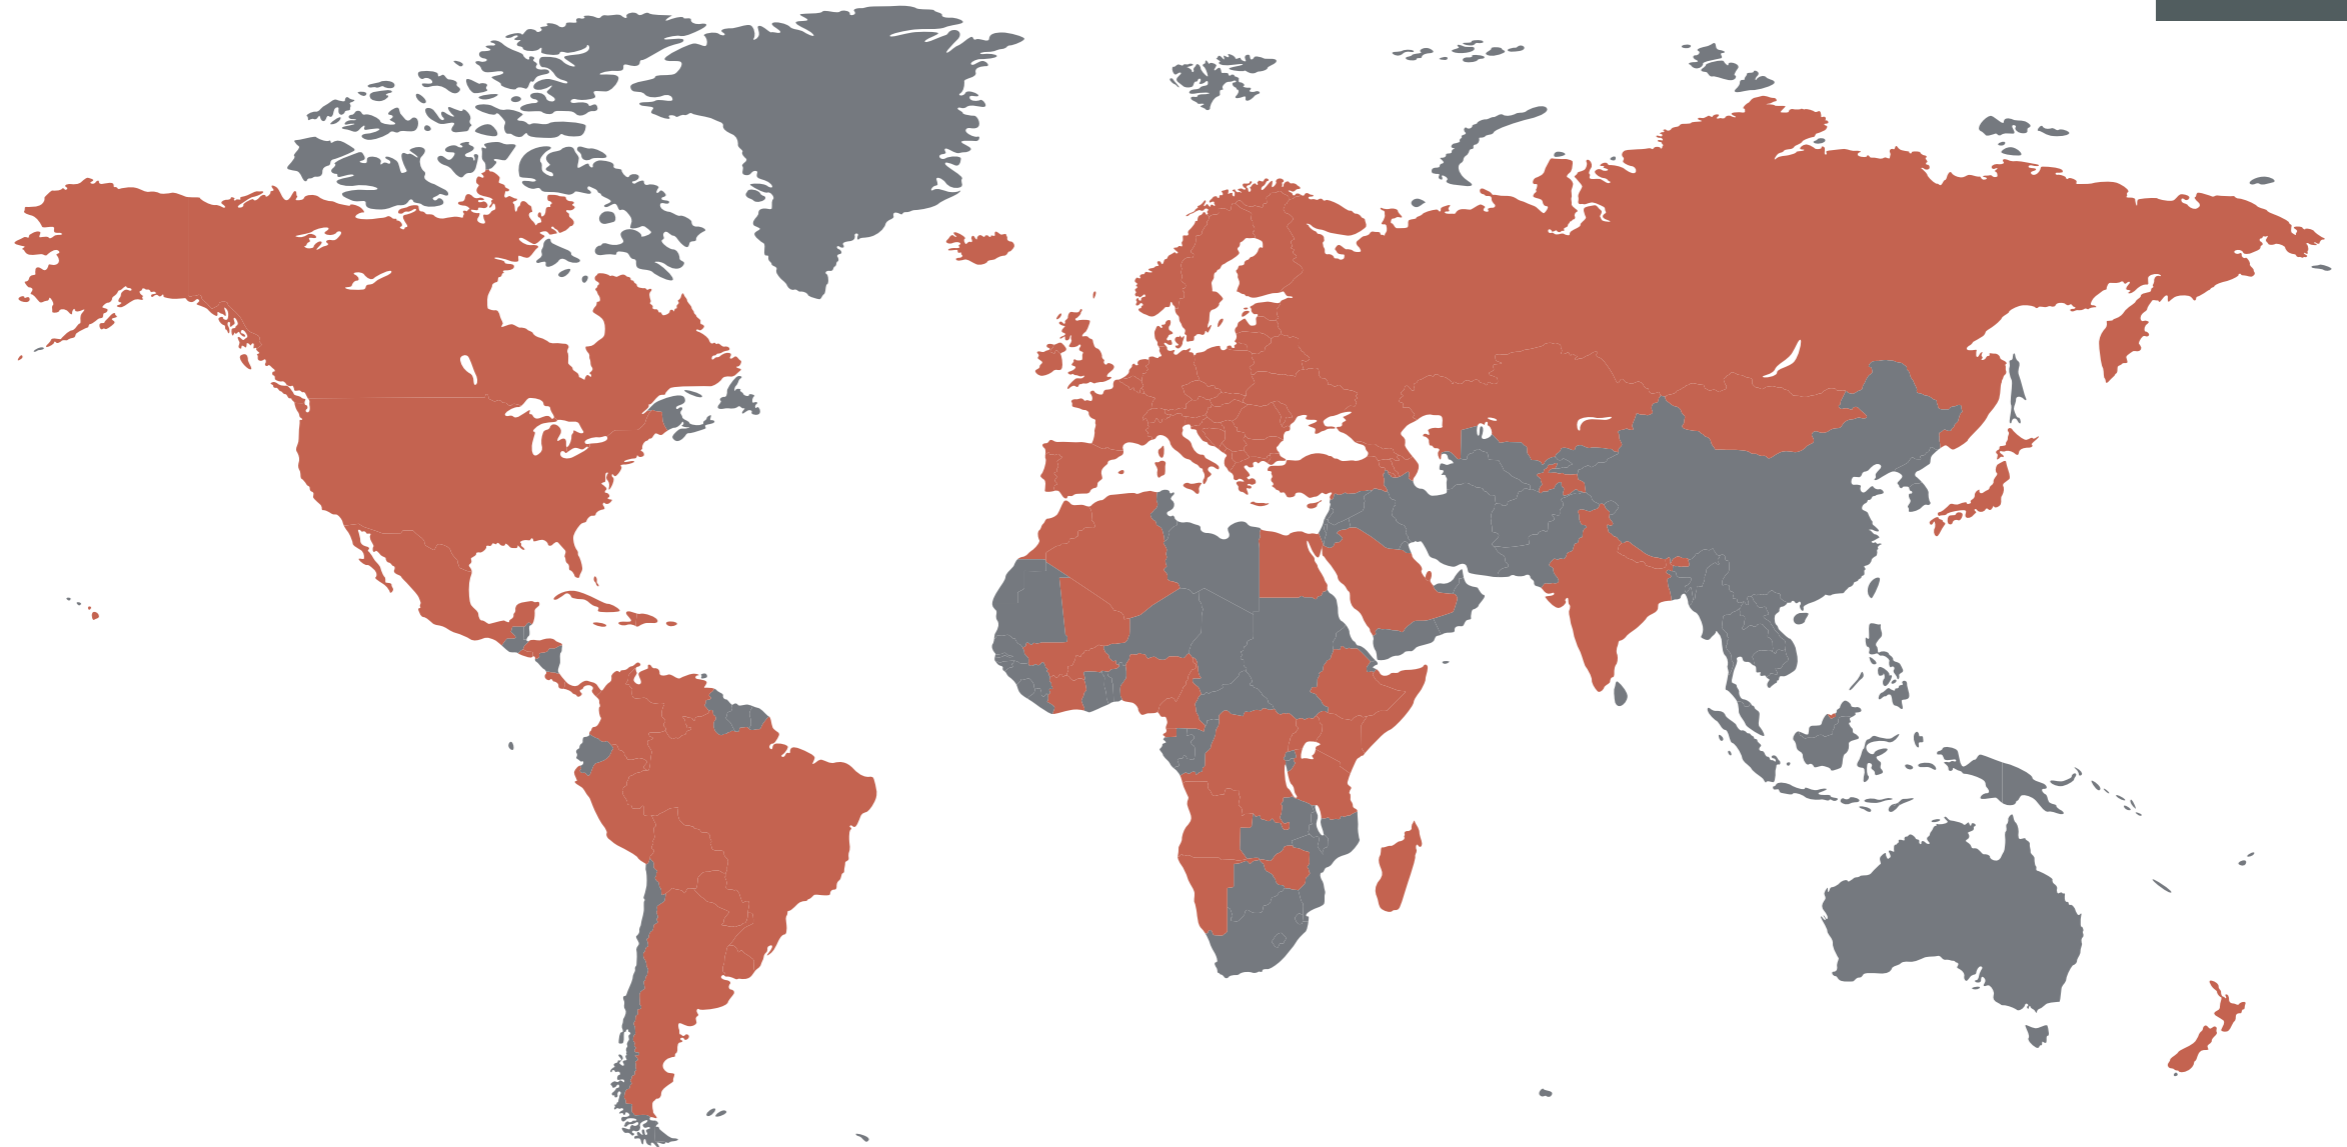

Theft prevention | Corrosion resistance | Anti-noise system | Easy to handle
Pass the loading test | Ecological and environmental friendly | Non – conducting

Flexible Bollards

Due to the innovation in polypropylene and polyethylene materials, we manufacture and distribute bollards that absorb the vehicle impacts recovering its position without damages nor deformation.

Currently, we are present in the five continents, with an infrastructure to serve customers virtually anywhere in the world.

Through our network of distributors we sell our products in more than 170 countries.

By working with more than 1000 distributors and partners around the world, we cover and meet the needs of any country. The high volume of products in stock and our agile commercial department makes the distributors to have the products just in time.

Some of our projects

Why Grup Fábregas?

More than 30 years operating on the market

Leaders on the market

More than 300 products available, diversification
